2020.docx

Dear Roberto Di Bartolomeo!

Thank you very much for the unique Aortic symposium that you organized for the tenth time in Bologna. At the conference, we discussed with you about the possibility of your arrival in Russia in Perm. Your visit would be a great honor for the Federal Center of Cardiovascular Surgery in Perm. Our Center performs 5,000 cardiovascular procedures per year, including 2,000 open-heart surgery and 80 Aortic cases. The conference will be held on February 7-8, 2020. Live surgery will be performed on February 7. February 8 will be a scientific program, which includes presentations from the USA, Europe and many regions of Russia. We have prepared for you a patient with aortic root aneurysm and a bicuspid aortic valve for valve sparing surgery. It would be very useful for all cardiac surgeons from Russia to listen to your lectures on valve-sparing operations in aortic root surgery and "FET" in aortic surgery. We will organize your trip with your family and would be very happy for your visit. I am sending a preliminary version of the conference program.

We will wait your reply

With best wishes

Sincerely yours

Andrey Marchenko

Deputy Director of Federal Center of Cardiovascular Surgery, Perm

**“FEDERAL CENTER OF CARDIOVASCULAR SURGERY
NAMED AFTER S.G. SUKHANOV” (PERM),
MINISTRY OF HEALTH RUSSIAN FEDERATION,
“PERM STATE MEDICAL UNIVERSITY NAMED AFTER
ACADEMICIAN E. A. WAGNER” PERM**

**INTRAOPERATIVE DIAGNOSTICS AFFECTING ON
TACTICS AND RESULTS IN CARDIAC SURGERY**

Fifth International Symposium

dedicated to the memory of professor S.G. Sukhanov

"Sukhanov's Readings"

IZING COMMITTEE ADDRESS:

al Zhukov Street,
ssian Federation,

:(342) 239-87-87, 239-87-77
fccvs@permheart.ru

**Perm
2020**

colleagues!

*invite you to take part in the international symposium «Intraoperative diagnostics
on tactics and results in cardiac surgery»*

7-8 February 2020

name: "Federal Centre of Cardiovascular Surgery"
35 Marshal Zhukov Street, Perm, Russian Federation

phone: 9:00
8:00
+7(342) 239-87-87

NISING COMMITTEE

members of committee:
A.V. Marchenko
E.N. Orekhova
S.V. Gladkov

secretary:
herepanova

technical and information support:

ouravlev,
olnitsin, O.V. Ivanova,
E.G. Pavlova.

PROGRAM

7th February - Live surgery

Valve sparing operation for aortic root aneurysm & bicuspid aortic valve
"Ozaki" operation
"David" operation
"Bentall de Bono" operation
Hybrid stent graft for aortic arch aneurysm

8th February - Scientific program

09:00–09:10 Introduction
Y.S. Sinenikov Director of «FCCVS» Perm.

09:10–09:30 Predictors of valve sparing operations in aortic root surgery.
Roberto Di Bartolomeo, Professor of University of Bologna, Cardiac Surgery Dept. St. Orsola Hospital, Italy.

09:30–09:50 Perioperative data affecting on the choice of surgical tactics for on-pump & off-pump coronary revascularization.
I.I. Chernov, Deputy Chief of Cardiovascular Surgery of «FCCVS» MH RF, Astrakhan

09:50–10:10 Intraoperative flowmetry during Coronary artery bypass grafting.
Kenton J. Zehr, Director for Cardiac Surgery dept., Detroit Medical Center of Heart Hospital, USA.

10:10–10:30 Detection of perioperative predictors for the prevention of complications in cardiac surgery.
A.V. Marchenko, Deputy Director of «FCCVS» MH RF, Perm.

10:30–10:50 Combination of visualization and flowmetry methods in intraoperative control of coronary revascularization.
Gabriele Di Giammarco, Clinica Cardiochirurgica University, Chieti, Italy.

10:50–11:10 Intraoperative anesthesiology monitoring during cardiac surgery.
V.V. Borodka, Director for Cardiac Anesthesia, Detroit Medical Center Heart Hospital, USA.

11:10–11:30 Role of visualization methods in interventional cardiology.
A.G. Osiev, Chief of interventional surgery, MEDSI Hospital, Moscow.

11:30–12:30 Lunch

12:30–12:50 «Frozen elephant trunk» in aortic surgery.
Roberto Di Bartolomeo, Professor of University of Bologna, Cardiac Surgery Dept. St. Orsola Hospital, Italy.

12:50–13:10 The influence of the choice of a hybrid prosthesis on the results of surgical treatment of aortic dissection.
E.R. Charchan, Chief of Cardiovascular dept. «RNCs» n.a. B.V. Petrovskiy, Moscow.

13:10–13:30 Hybrid stent grafts in aortic surgery.
B.N. Kozlov, Chief of cardiovascular dept., Scientific Research Institute of Cardiology, Tomsk.

13:30–13:50 Variations of Ozaki operation depending on perioperative data.
E.V. Rosseykin, Director of «FCCVS» MH RF, Khabarovsk

13:50–14:10 Intraoperative predictors for valve sparing operations for bicuspid aortic valve.
V.V. Aminov, Chief of cardiovascular dept., «FCCVS» MH RF, Chelyabinsk.

14:10–14:30 Near Infrared Brain monitoring during cardiac surgery.
Yusuke Terasaki, cardiothoracic surgeon, Detroit Medical Center of Heart Hospital, USA.

14:30–14:50 IT technologies in cardiac surgery.
D.G. Tarasov, Director of «FCCVS» MH RF, Astrakhan.

15:00 Closing ceremony

Dear Roberto Di Bartolomeo!

We are very happy for your agreement. For live surgery we will prepare different aortic patients. You can organise the trip with your agency and we will contact with Terumo company and our Russian company.

Best regards,

Andrey Marchenko

Тема: R: Conference in Russia on February 7-8

Dear Dr. Marchenko,

I'm glad you enjoyed my meeting and I thank you for the invitation to attend your conference.

Regarding live surgery I would prefer to perform a Frozen Elephant Trunk or an intervention on the arch of the aorta or a valve sparing operation with a tricuspid valve.

The reason is that I don't really like the valve sparing operation of the bicuspid valve.

I also ask you if I can organize the trip with my agency.

Best regards,

Roberto Di Bartolomeo
